

FASTLISA Unleashed: Transforming Theory Into Action

The three communities employed diverse methodologies during the engagement phase to combat online hate speech. Despite similar challenges, they recognized the need to tailor their approaches to their unique socio-cultural contexts.

RAVENNA, ITALY

Adopted ECHO (Educational Chat about Hate Online) to integrate the Role-plays into schools.

- **9 workshops**
- **Three institutes** involved
- **210 students** (5th and 7th grade)
- **Span of 3 months** (October – December '23)

Conducted Public Consultation of administration proposals: e-Participation.

- **4 events:** 3 Workshops and 1 Public Consultation
- **71 participants attended** the workshops targeting third-sector operators
- **827 comments generated** of which 774 successfully passed through the scrutiny of the moderators.
- **Span of 4 months** (July – October '23).

KREIS OFFENBACH, GERMANY

Adopted ECHO (Educational Chat about Hate Online) to integrate the Role-plays into schools.

- **1 Event**
- **Over 100 students** (aged 12 to 25)
- Teachers, representatives of the communes in the district, policy makers, experts, representatives from the police department and politicians
- **Participants tried the ECHO App** in batches of 20 at a time
- **More workshops to come** as part of the sustainability plan

During the Information Days, policymakers were **actively engaged while presenting the project's achievements and implementation progress**. Additionally, project **Ambassadors played an integral role in the process**.

SANTA COLOMA DE GRAMENET, SPAIN

Conducted Public Consultation of administration proposals: e-Participation.

- **1 Public Consultation**
- **54 proposals** received
- **310 reactions** of support and approval to the comments made by citizens
- **Span of 3 months** (October – December '23)

The **Ambassadors lead efforts** to disseminate project messages within their communities, **raising awareness among young populations** about the risks of online interactions, individual rights, and legal protections available to victims of hate crimes for self-defense and reporting.

Engaged policymakers and scholars in a **conference dedicated to strengthening detection and response methodologies within the field of criminal law**.

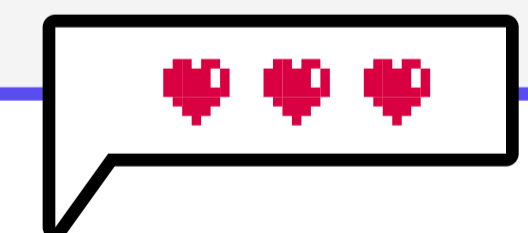

INSIGHTS

Help drafting a comprehensive set of actionable steps to replicate FASTLISA's use cases and tools

Help shaping policy recommendations related to critical issues like digital rights, online safety and digital citizenship

Promote understanding of online hate speech which helps in advancing digital rights and enhancing online safety

TO ULTIMATELY FOSTER A MORE INCLUSIVE AND
EQUITABLE ONLINE ENVIRONMENT FOR EVERYONE
